

## INVERTER-CHECK-KIT

**Item Number 4678571**

Diagnostic device to detect electronic defects in air conditioning and refrigeration systems. Various cable sets allow connection to boards and connectors.

- Direct analysis of compressor or inverter faults
- Quick visual status display
- Compact design 81 x 73 x 28 mm
- Complies with the CE low voltage directive
- For inverters up to 440 VAC

## Spare Parts
